# Christian Ruefli-Flury

## FOUNDER OF EDOX

### 1884

#### IT ALL BEGAN WITH A TRUE LOVE STORY

Christian Ruefli-Flury, a highly talented and romantic watchmaker "Maître-Horloger" from Grenchen in Switzerland, produces a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinces her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

## 1900 THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo. In ancient Greek, Edox means “the measuring of time”.

## 1955 A GROWING COMPANY

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies.

## 1961

### THE WATER CHAMPION

The famous “Delfin” timepiece was launched, which featured a double-case back, sturdy protective gaskets and seals, setting new standards of shock protection and water resistance.

## 1970

### THE FIRST GENUINE WORLD TIME WATCH

This year saw the introduction of the world’s first truly global timepiece, the “Geoscope” watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

## 1998 WORLD RECORD STILL UNBROKEN

Edox engineers and watchmakers developed the world's slimmest calendar watch, the "Les Bémonts Ultra Slim" collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

## 2005 MAJOR ACHIEVEMENTS

Edox launched the "Les Bémonts Maître Horloger 5-Minute Repeater" timepiece, followed by the "Køenigsegg" timepiece, in a partnership between the Swedish sports car manufacturer and Edox.

## 2009 THE TIMEKEEPER

Edox launched a revolutionary new timepiece equipped with a movement specially made for Edox. The "Chronorally" timepiece has various functions, such as race timing, replay, total timing, countdown and chronograph.

## 2011 WATER RESISTANCE TO 1000 METERS

The Iceman Limited Edition offers a phenomenal water resistance to 1000 meters thanks to its sturdiness and ingenious case construction.

## 2013 THE REVIVAL OF AN ICON

Edox celebrates the revival of an icon with the launch of the new Delfin collection, an emblematic collection which was first launched in the 70's.

## 2014 130TH ANNIVERSARY

Since 130 years, Edox imagines, produces and distributes Swiss-made and hand-assembled timepieces, respecting the tradition and the know-how of our elders.

Les Genevez, Switzerland, Home of Edox, 15h07 GMT

# CHRONORALLY 1

All Chronorally equipment and gear must be tough enough to survive the harshest conditions: speed, mud, snow, shocks, heat, etc. Edox Chronorally timepieces have been designed and engineered to withstand the most extreme environment. Technical materials such as strong rubber straps, solid stainless steel cases and robust, reliable movements are features on all Chronorally timepieces. Edox is the Official Timekeeper of Rally Dakar.

## COLLECTION HIGHLIGHTS

### CASE

Robust case construction is necessary to survive the terrifying conditions of the desert.

### STRAP

The rubber strap of the Chronorally 1 collections features tire prints as a strong statement.

### BEZEL

The steel bezels are designed to withstand all technical requirements and offer countdown functions.

## COLLECTION HIGHLIGHTS

### PUSHER

The pusher offers easy access thanks to its generous and sporty shape and color.

### STRAP

The rubber strap of the Chronorally collection features tire prints as a strong DNA.

### PVD – FINISHES

A final touch of glossy black PVD coating brings sport spirit and elegance to the timepieces

EDOX OFFICIAL TIMEKEEPER OF DAKAR RALLY

# CLASS-1

“At 270 km/h, what you see in front of you is already history,” Class-1 pilots say. Class-1 is the Formula 1 of the oceans. Class-1 timepieces must meet very demanding criteria and feature technical aspects such as ceramic bezel, stated water resistance and black carbon dials.

Edox is the official timekeeper of the UIM Class-1 World Powerboat Championship.

## COLLECTION HIGHLIGHTS

### HELIUM VALVE

The helium escape valve opens and closes automatically, allowing excess pressure to escape.

### WATER-RESISTANCE

Class-1 timepieces are water resistant to depths of from 900 to 3000 feet (300 to 1000 meters).

### CASE-BACK ENGRAVING

The engraving on the Class-1 provides the collection with a clear DNA. The propeller of the famous Class-1 powerboat is a distinctive emblem of this collection.

# THE REVIVAL OF AN ICON

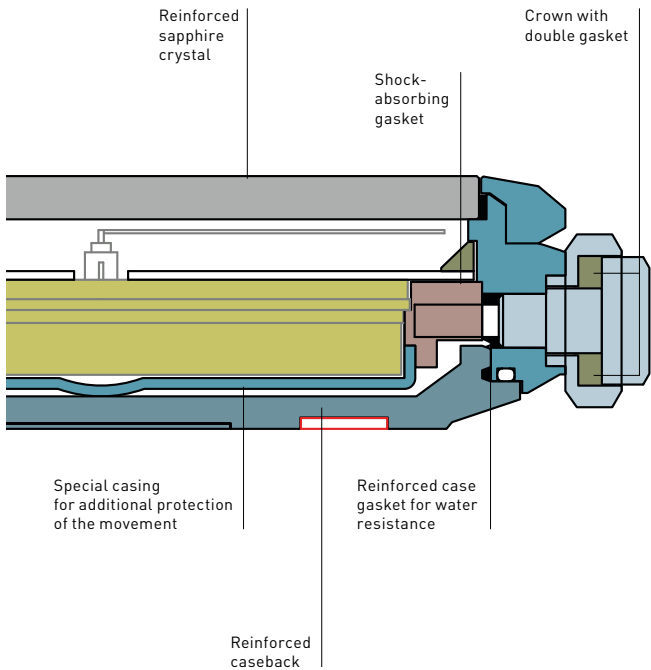

**2013** Generation 4  
Delfin The Original  
WR 10 ATM

The Delfin was to be the first of many Edox models especially suited to maritime activities such as sailing, diving or power boating.

Edox set new benchmarks in 1965 with the Hydrosub, a model water-resistant to 500 metres and continued to sell Delfin models up in the 1980s.

In 2013, Edox has revived the Delfin for 21st Century watch fans, capturing the spirit of the original model with a classic retro-inspired case but also building on more than 50 years' expertise in the field of waterresistant watches.

# GRAND OCEAN

In the world of regattas, precision, technical criteria and sportsmanship are the keys to success. The Grand Ocean collection is dedicated to the spirit of yachting and to races that push man and machine to the limit. The timepieces reflect these sailing boats: sporty, elegant, stylish and designed for professionals. Edox is the Official Timekeeper of the Extreme Sailing Series™.

## COLLECTION HIGHLIGHTS

### MOVEMENTS

Most of the Grand Ocean timepieces are equipped with highly reliable mechanical movements.

### HORNS

Triple horns add a unique feature to the collection and guarantee a perfect fit of the strap.

### CASE CONSTRUCTION

The Grand Ocean case structure reveals a complex, multi-part assembly.

LES VAUBERTS AREA, JURA, SWITZERLAND

# LES VAUBERTS

Les Vauberts is a small area near Les Genevez, famous for having hosted the first watchmakers more than 300 years ago. Working in the fields in summer, these farmers became watchmakers during the winter months and were the pioneers of today's watchmaking industry.

The design of Les Vauberts is elegant, classic, and features reliable mechanical or powerful quartz Swiss-made movements.

## COLLECTION HIGHLIGHTS

### MOVEMENTS

Reliable mechanical calibers and accurate quartz movements are featured in the Les Vauberts collection.

### CASE

Easily recognizable thanks to its simple, elegant and classic shape.

### CASEBACK

A tribute to four centuries of Swiss watchmaking history with a case-back engraving showing a historical Swiss Jura house, home of our watchmaking predecessors.

### **Born in 1884**

With over 130 years of watch making experience, Edox is one of Switzerland's most experienced watch companies. Edox is one of the few remaining Swiss watch companies which is still independent and family-owned.

### **Hand-assembled in Switzerland**

All Edox Watches are entirely hand-assembled in the Swiss Jura, which is known as the heart of the Swiss watch making industry. Every single movement is made in Switzerland.

### **World Record Holder**

Edox is the manufacturer of the world's slimmest calendar movement. An unbroken world record since 1998.

### **Professional Timekeeper**

Edox is now recognized as a professional timekeeper for international sport events at championship level and a manufacturer of specialized watches dedicated to selected sports such as the Class-1 or the Chronorally collection featuring exclusively developed Edox calibers.

# MECHANICAL MOVEMENTS

At Edox, our skilled watchmakers work with fine and exclusively Swiss-made movements.

Crafted with the finest and purest material, Edox movements reflect the best Swiss watchmaking skills and know-how.

Meticulously inspected, each movement is then carefully hand-assembled in the case of the watch.

Edox timepieces feature Swiss-made movements, respecting the tradition of our predecessors.

Each one includes **Functions:** Display of hours, minutes, seconds and **Frequency:** 28'800 A/h

## EDOX QUALITY CONTROL

Each Edox timepiece is hand-assembled and each timepiece is checked and controlled over a long period of time – by both human beings as well as special equipment to ensure optimal quality.

All watches, quartz as well as mechanical, undergo very

extensive series of tests: water resistance (air test with varying pressure and depression), stress test (violent and quick rotation in a sophisticated machine) and visual inspection.

Making no compromises in terms of quality is a strict priority for Edox.

## EDOX SERVICE

All Edox timepieces are covered by the Edox international warranty for 2 years, from the date of purchase.

The Edox collection watches feature high-precision movements, mostly mechanical but also quartz. These movements need to be revised regularly, the regularity of revision depending on their complexity.

Each watch returning to our After Sales Service will pass through the hands of our highly skilled watchmakers who will verify that your watch works correctly and will check the “engine” of the movement. Upon special request, we will also perform cleaning and polishing of your watch, so that it gets back to its original state.
