EDOX HISTORY

CHRISTIAN RUEFLI-FLURY

FOUNDER OF EDOX

- 1860 Born in Courrendlin (Switzerland), son of a foundry master. Educated in Courrendlin.
- 1870 Moved to Grenchen (Switzerland). Commenced horology apprenticeship with Urs Schild, one of the great Master Watchmakers, before joining the Eterna watch company.
- 1883 Married Pauline Flury. Worked for Jean Ægler - watchmaker in Biel/Bienne until 1883.
- 1884 Founded his own watchmaking atelier in Biel/Bienne. Principal founder of the Lake Biel-Bienne Steam Boat Company and originator of the Evillard funicular and the Wildermeth Hospital in Biel/Bienne. Made numerous significant donations to regional hospitals and to children's nurseries in Biel/Bienne and gave monetary support to retirement homes and sanatoriums for the hard of hearing.

1884

IT ALL BEGAN WITH A TRUE LOVE STORY

Christian Ruefli-Flury, a highly talented and romantic watchmaker "Maître-Horloger" from Grenchen in Switzerland, produces a pocket watch for the 25th birthday of his beloved wife Pauline. Impressed by this exquisite gift, she convinces her husband to set up his own watch making company in Biel, a city famous for its well-educated watch engineers. Christian Ruefli-Flury called his company "Edox" which means "measuring of time" in ancient Greek.

1900

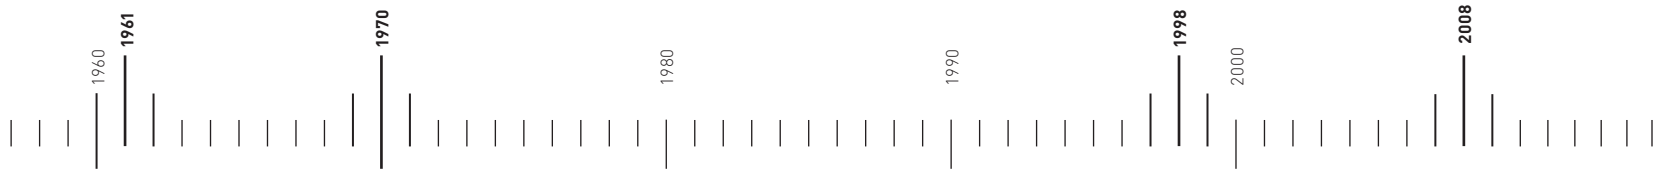

THE BIRTH OF A LOGO

The hourglass was officially used as a timeless symbol of Edox and since then, it has been a proud part of the official Edox company logo.

1955

A GROWING COMPANY

At that time, Edox employed up to 500 watchmakers and the company moved into new, modern and larger production facilities. Edox was amongst Switzerland's leading watch companies.

1961
THE WATER CHAMPION

The famous “Delfin” timepiece was launched, featuring a double caseback, special protective gaskets and a specially invented double O’ring system, setting new standards of shock protection and water resistance.

1970
THE FIRST GENUINE
WORLD TIME WATCH

This year saw the introduction of the world’s first truly global timepiece, the “Geoscope” watch. Covering all time zones, the watch provided timekeeping for almost 50 different cities around the world, as well as local time.

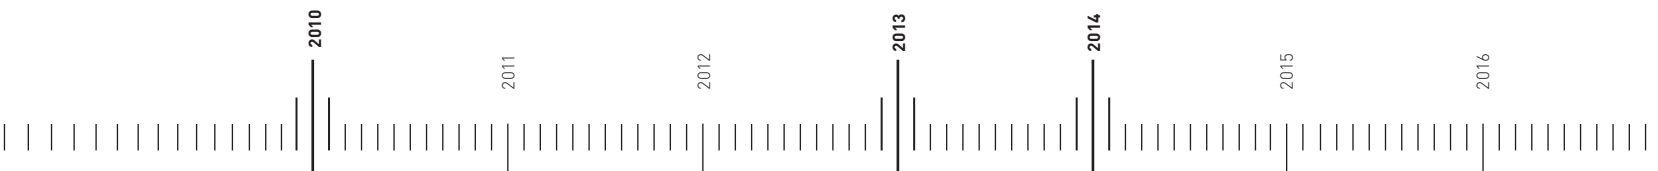

1998
WORLD RECORD STILL
UNBROKEN

Edox engineers and watchmakers developed the world’s slimmest calendar watch, the “Les Bémonts Ultra Slim” collection. The movement had a thickness of only 1.4 mm, which is a technical record still held by Edox to this day.

2008
CLASS-1 TIMEKEEPING

EDOX is the official timekeeper of the Class-1 World Powerboat Championship and is the first watch manufacturer timing partner of high-class offshore races. The Class-1 timepiece collection is a true statement of the performance and a technical rendering of both philosophies.

2010

THE TIMEKEEPER

EDOX becomes the official WRC timekeeper and launches a new collection dedicated to rally drivers, true virtuosos of the tarmac, snow and ice, and to all devotees of the automobile and motor-racing world.

2013

THE REVIVAL OF AN ICON

Edox celebrates the revival of an icon with the launch of the new Delfin collection, an emblematic collection which was first launched in the 70's.

2014

130TH ANNIVERSARY

Since 130 years, Edox imagines, produces and distributes Swiss-made and hand-assembled timepieces. The Les Genevez based factory is operated with skilled Swiss watchmakers and modern equipment, respecting the tradition and the know-how of our elders.

SPIRIT OF THE OCEAN GRAND OCEAN

In the world of regattas, precision, technical criteria and sportsmanship are the keys to success. The Grand Ocean collection is dedicated to the spirit of yachting and to races that push man and

machine to the limit. The timepieces reflect these sailing boats: sporty, elegant, stylish and designed for professionals. Edox is the Official Timekeeper of the Extreme Sailing Series™.

SPORTING INSTRUMENTS

COLLECTION HIGHLIGHTS

Movement

Most of the Grand Ocean timepieces are equipped with highly reliable mechanical movements.

Horns

Triple horns add a unique feature to the collection and guarantee a perfect fit of the strap.

Case Construction

The Grand Ocean case structure reveals a complex, multi-part assembly.

SPORTING INSTRUMENTS

OFFSHORE INSTRUMENTS **CLASS-1**

Class-1 timepieces must meet very demanding criteria and feature technical aspects such as ceramic bezel, stated water resistance or carbon dials.

Class-1 timepieces emphasize Edox tradition and know-how on building and engineering watches for high level and offshore competitions.

SPORTING INSTRUMENTS

COLLECTION HIGHLIGHTS

Ceramic

Ceramic is a non-metallic and anti-allergenic mineral material that undergoes treatment in a high-temperature environment. It is twice as hard as stainless steel and virtually scratch resistant.

Helium valve

The helium escape valve opens and closes automatically, allowing excess pressure to escape.

Water-resistance

Class-1 timepieces are water resistant to depths of from 900 to 3000 feet (300 to 1000 meters).

Case-back engraving

The engraving on the Class-1 provides the collection with a clear DNA. The propeller of the famous Class-1 powerboat is a distinctive emblem of this collection.

RALLY INSTRUMENTS CHRONORALLY

All Chronorally equipment and gear must be tough enough to survive the harshest conditions: speed, mud, snow, shocks, heat, etc. Edox Chronorally timepieces have been designed and engineered to withstand the most extreme environment.

Technical materials such as strong rubber straps, solid stainless steel cases and robust, reliable movements are featured on all Chronorally timepieces. Edox is the Official Timekeeper of Rally Dakar.

CHRONORALLY

SPORTING INSTRUMENTS

COLLECTION HIGHLIGHTS

Pusher

The pusher offers easy access thanks to its generous and sporty shape and color.

Strap

The rubber strap of the Chronorally collection features tire prints as a strong DNA.

Titanium

Strong as steel but 45% lighter and highly resistant to shocks and extreme condition.

THE WATER CHAMPION WATCH DELFIN THE ORIGINAL

The Delfin was to be the first of many Edox models especially suited to maritime activities such as sailing, diving or power boating.

Edox set new benchmarks in 1965 with the Hydrosub, a model water-resistant to 500 metres and continued to sell Delfin models up in the 1980s.

In 2013, Edox has revived the Delfin for 21st Century watch fans, capturing the spirit of the original model with a classic retro-inspired case but also building on more than 50 years' expertise in the field of waterresistant watches.

STYLE & ELEGANCE

STYLE & ELEGANCE
LES BÉMONTs

Les Bémonts is a picturesque forest situated just a few meters from the EDOX factory. The timepiece collection features classical design, with pure and timeless

lines and is equipped with a variety of high-quality Swiss-made movements, from the automatic chronograph to the Ultra Slim quartz movement.

STYLE & ELEGANCE

COLLECTION HIGHLIGHTS

Movement

Les Bémonts timepieces are equipped with an excellent Swiss-made hand-winding movement.

Design

The classical yet elegant and timeless design are the most attractive assets of Les Bémonts timepieces.

Homeland

Les Bémonts is a forest near Les Genevez. Edox is very attached to its roots, values and watchmaking craftsmanship.

STYLE & ELEGANCE

TRADITION OF 4 CENTURIES **LES VAUBERTS**

Les Vauberts is a small area near Les Genevez, famous for having hosted the first watchmakers more than 400 years ago. Working in the fields in summer, these farmers became watchmakers during the

winter months and were the pioneers of today's watchmaking industry. The design of Les Vauberts is elegant, classic, and features reliable mechanical or powerful quartz Swiss-made movements.

STYLE & ELEGANCE

COLLECTION HIGHLIGHTS

Movement

Reliable mechanical calibers and accurate quartz movements are featured in the Les Vauberts collection.

Case

Easily recognizable thanks to its simple, elegant and classic shape.

Bracelet

Adjustable and easy to wear with elegant multiple links for the stainless steel bracelet.

Caseback

A tribute to four centuries of Swiss watchmaking history with a case-back engraving showing a historical Swiss Jura house, home of our watchmaking predecessors.

TRADITION OF 4 CENTURIES LES VAUBERTS

Representing a true story...

The end of the 16th century marked the start of watch making in the Jura mountains. The "Les Vauberts" collection pays tribute to this era by featuring a historic farmhouse on the case back which reflects the style of buildings where our predecessors made clocks during the harsh winter month.

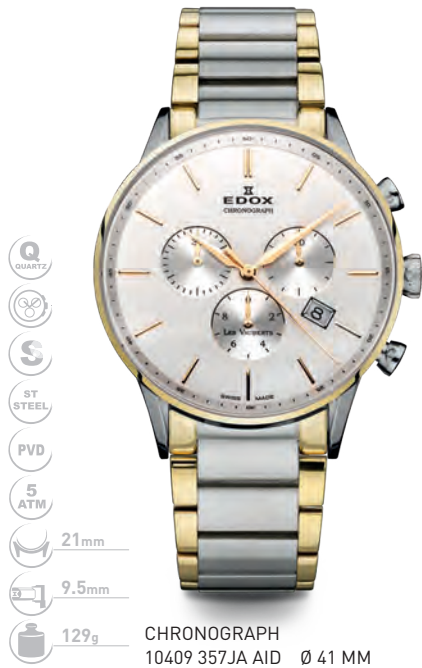

TECHNICAL INFORMATION

EDOX QUALITY

MOVEMENTS

REFERENCE NUMBER SYSTEM

PICTOGRAMS

EDOX QUALITY

Batteries

In compliance with global regulations and standards, Edox equips its quartz timepieces with mercury-free batteries. This is a positive step towards environmental sustainability with no effect on the watch precision and efficiency.

Conformity

Every component coming into our production facility in Les Genevez in the Swiss Jura is checked to ensure its dimensions, aesthetics, quality and interchangeability.

Diamonds

Edox diamonds are carefully selected and matched not just according to carat value but also to cut, color and clarity. All diamonds are purchased from legitimate sources not involved in funding conflict and in compliance with United Nations resolutions. We guarantee that these diamonds are conflict free.

Edox double O'ring Crown or Pusher

Since the 70's, Edox has set specific quality and technical standards for ensuring the water resistance of diving timepieces. The double O'ring crown or pusher has been engineered by Edox to allow to increase the resistance to water pressure. Timepieces equipped with crowns or pushers featuring a double O'ring are featuring the special pictogram for easy understanding.

Helium Escape Valve

Some of our Class-1 timepieces are equipped with a de-compression system which allows helium to escape from inside the watch when worn for professional use in pressure chambers (long-term underwater work, crude oil exploration, etc).

The Edox helium valve opens and closes automatically. It is imperative that the models equipped with a non-automatic helium escape valve (such as older Edox timepieces) have the helium valve screwed back in order to guarantee their water resistance.

Unscrew the helium escape valve only to release the gas from the watch.

These adjustments must never be made underwater.

Leather

All Edox leather straps are specially cut, stitched and padded by expert craftspeople. Various ways of tanning provide different touch and feel for the straps made of cow or calf leather. It is always important to remember that colors and suppleness of leather are subject to change with time and exposure to external factors. Daily showers or swims are not recommended. If your consumers live a very active lifestyle, especially one involving frequent exposure to salt water and heavy perspiration, we recommend a steel bracelet or rubber strap.

Luminescence

This technology, branded under the name Super-Luminova, offers brightness in low-light conditions, thanks to a non-radioactive and non-toxic material like the tritium previously employed in the industry. Edox uses Super-Luminova for its highly functional attributes. It is applied on watch parts such as hands, numerals, bezel indices, etc.

Mother-of-pearl

Resilient, and iridescent, mother-of-pearl is integrated in many Edox dial designs. It is produced inside the shells of certain mollusk shells. This is why each dial made of mother-of-pearl is unique.

Movements

EDOX equips its timepieces with Swiss-made precision mechanical and quartz movements. These are sourced from the best manufacturers in Switzerland. Exclusive mechanisms are also developed with renowned partners for special timepieces. Edox integrates exclusive Swiss-developed and Swiss-made electronic modules to power timepieces like the Chronorally.

Mechanical movement:

A mechanical movement undergoes several stresses in its life. To ensure it will remain functional and precise as long as possible, Edox simulates watch wearing in its own quality office for every single manual and self-winding mechanism.

PVD

Edox uses PVD coatings which is a high-performance pollution-free and non-allergenic technology also used in the aeronautic industry, is widely used in watchmaking. The process involves putting a fine titanium coating on stainless steel by condensing a metal vapor in a partial vacuum.

Rubber

Edox uses genuine high-grade rubber for its straps (a natural material and extremely comfortable). The rubber is silky finished and easy to maintain with the proper cleaning.

Sapphire crystals

100% of Edox timepieces are fitted with a scratch-resistant crystal that has been cut from a polished slice of solid sapphire. Each has a triple-coated anti-reflective treatment on the internal side for better legibility.

Stainless Steel

The 316L stainless steel alloy used in Edox cases and bracelets has strong anti-magnetic properties and is optimized for toughness and corrosion resistance. It is also a good choice for consumers allergic to nickels.

Titanium

Edox integrates this metal to some of its sports timepieces, as it is as strong as steel but 45% lighter and highly resistant to corrosion. The high tensile strength to density ratio makes it the ideal material for active lifestyles.

Visual and manual testing

In addition to our testing process, all timepieces are visually checked between each manufacturing step ensuring overall quality based on our own Edox standards. If a timepiece does not pass inspection, it is checked and repaired. It can only go back to the production phase if it has passed the quality check.

Free Dive World Champion Christian Redl recommends the following Water Resistance:

 **Water-resistance**

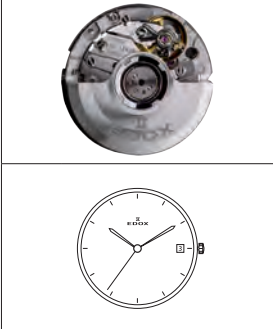

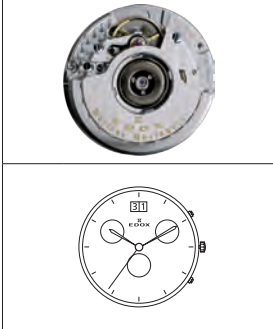

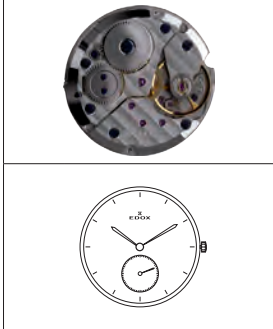

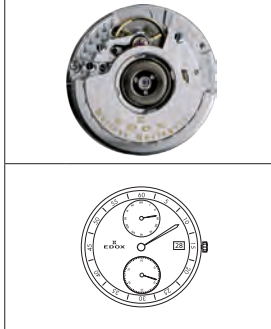

Edox watch cases are hermetically sealed using high-grade rubber gaskets and screwed-in casebacks to ensure that no moisture or dust comes in contact with the movement inside.

WATER RESISTANCE CLASSIFICATION

	Meters	Feet	ATM	All Edox timepieces are water-resistant from 30 to 1000 metres. Check the details on the back of your Edox timepiece and read the following instructions carefully.	Collection
	30	100	3	Will withstand rain or splashes of water and accidental immersion, but should not be worn while showering, swimming or diving.	Les Bémonts
	50	165	5	Suitable for showering or swimming in shallow water.	Les Vauberts
	100	330	10	Suitable for swimming or snorkelling.	Chronorally, Grand Ocean
	200	650	20	Suitable for swimming or snorkelling.	Class-1
	300	990	30	Suitable for scuba diving.	Class-1, Grand Ocean
	500	1650	50	Appropriate for serious deep water diving.	Hydro Sub, Class-1
	1000	3000	100	Appropriate for extreme deep water or bell diving.	Iceman III

REFERENCE NUMBER SYSTEM

The following information will help you on how to handle the Edox reference number, which will give you helpful product information regarding movements, dials and cases.

CHRONORALLY
10302 37N NIN Ø 45 MM

10302 37N NIN

MOVEMENT

The first 2 or 3 digits of these five figures represent the Edox movement code. Please refer to the page 130-135 of this catalogue.

10302 37N NIN

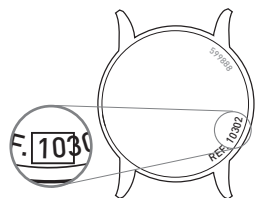

CASE MATERIAL

The digits and/or letters represent the material and surface treatment (colour) of the case. (See the table)

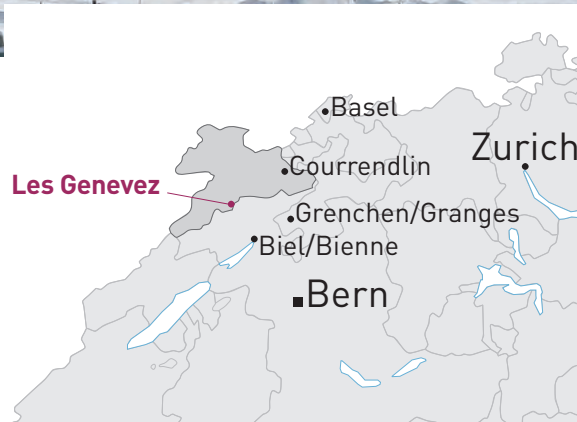

10302 37N NIN

DIAL VARIATIONS

The digits and letters represent the colour and design of the dial.

MOVEMENT	
10	please refer to the page 133
CASE MATERIAL	
3 / 3A / 3B / 3N	Stainless steel 316
3BU0	Stainless steel 316L with blue and orange bezel
318D	Stainless steel 316L with 18 ct gold bezel, diamonds
318R	Stainless steel 316L with 18 ct pink gold bezel
357A / 357J	Stainless steel 316L with yellow PVD coating
357B	Stainless steel 316L with blue PVD coating
357BRR	Brown and pink PVD coating
357N	Stainless steel 316L with black PVD coating
357R	Stainless steel 316L with pink PVD coating
37J	Yellow PVD coating
37JA	Yellow PVD coating, silver ring
37JG	Yellow PVD coating, golden ring
3M	Stainless steel 316L with steel bracelet
3NM	Stainless steel 316L, black bezel, with steel bracelet
30M	Stainless steel 316L, orange bezel, with steel bracelet
37N	Black PVD coating
37NPN	Black PVD coating, black pusher
37R	Pink PVD coating
3PB0	Stainless steel 316L / Blue pusher
3PR	Stainless steel 316L / red pusher
TIN / TINR	Titanium
DIAL VARIATION	
AID / AID2	Silver / Golden indices
AIN / AIN2	Silver / Silver indices
AINO	Silver / Black indices
AIR	Silver / Pink indices
ABD	Silver / Golden Breguet numberings
ABN	Silver / Silver Breguet numberings
ABR	Silver / Pink Breguet numberings
