NEPTUNIAN GRANDE RÉSERVE - WATER AND WEEKEND-PROOF

50 years ago, boutique Swiss watchmaker EDOX launched the legendary SkyDiver, a rugged sports timepiece created especially for a military elite group. Over the past few years, the SkyDiver collection has undergone a transformation, emerging as the Neptunian collection - a range of extremely rugged dive watch. The new Neptunian Grande Réserve models take this recent collection to a whole new level.

At the heart of the Neptunian Grande Réserve lies the new calibre 808, boasting a generous 68-hour power reserve (réserve de marche in French). This new feature allows wearers to leave the watch aside for the weekend without the need to reset the time on the first day of the week. Beyond this improvement, these new models also offer a slightly smaller case (42mm) while keeping a strong yet comfortable presence on the wrist.

Forged from the same DNA as the original rugged Neptunian, the new Neptunian Grande Réserve models also feature a scratch-resistant ceramic bezel and sapphire crystal, ensuring that the watch face retains its pristine appearance for years to come. Water-resistant down to 300m/30 ATM, screw-down crown, and Super-LumiNova x1 covering hands and indices, the Neptunian Grande Réserve is designed to excel both in and out of the water.

EDOX - The Water Champion

EDOX – SKYDIVER NEPTUNIAN AUTOMATIC

NEPTUNIAN

The Neptunian models are the natural evolution of the SkyDiver collection rumoured to be launched following a Swiss colonel secret request in 1973. Water-resistant down to 1000m, the Edox Neptunian is a true “Water Champion”. Its outstanding durability and reliability were achieved by several engineering improvements such as 3mm thick sapphire crystal, automatic helium escape valve, double O’ring system and screw-down crown. The Neptunian combines precision, extreme conditions withstanding with elegance and aesthetics of a modern diving time instrument.

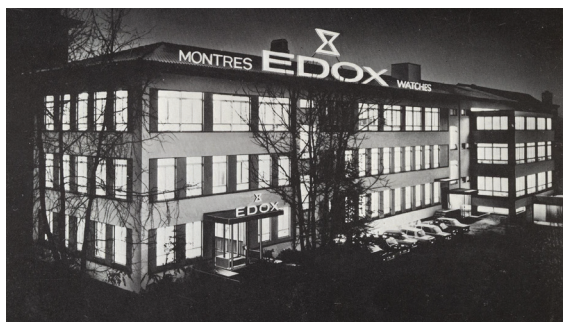

EDOX

Like time itself, Swiss boutique watchmaker Edox never stands still. Founder Christian Ruefli-Flury was driven by his heart when, in 1884, he made a pocket watch for his beloved wife Pauline’s 25th birthday. Delighted, she convinced him to set up his own company – Edox.

Over the decades Edox has forged a reputation as the “water champion” of the watch world, creating world-leading divers’ watches. Ruefli-Flury would no doubt be amazed and honoured how his legacy has flourished over the past 135 years.

One of the few remaining family owned Swiss watchmakers, Edox proudly acknowledges its heritage but also embraces innovation and imagination in its collections. Today, Edox is known for its highly water-resistant timepieces, complex hand-polished watch cases and traditional hand assembling.

Edox. A company shaped over time. A company shaping time.
