EDOX CO-1 Automatic Chronograph: Uncompromising Reliability for the Modern Adventurer

For decades, from its legendary Delfin in 1961 to the Hydro-Sub, and now the CO-1, family-owned Swiss watchmaker Edox has continually raised the bar for water-resistant timepieces. The original Edox CO-1 timepiece, engineered in 2006 for offshore powerboat racing, epitomizes a bold fusion of reliability and sophistication. Now, Edox proudly unveils its latest addition to this iconic lineage: the CO-1 Automatic Chronograph, equipped with a bezel lock system for enhanced diving security.

Safety First

The bezel lock system, a hallmark feature of the CO-1, provides additional security by locking the dive time indication bezel, ensuring precise timing during underwater adventures. Paired with both the scratch-resistant ceramic composition of the diving bezel and the sapphire crystal, it ensures unparalleled sturdiness and maintains its impeccable aesthetics.

Technical Ingenuity

The precision-engineered Swiss automatic movement, housed in a 45mm stainless steel case, incorporates chronograph, day, date, and tachymeter functions. The mechanism of these functions is visible through the transparent case-back, offering a captivating experience.

CO-1 Watches Embark on Ananta II

With the CO-1, every dive is an adventure. Waterproof up to 500 meters, it defies the elements, while the screw-down crown and pushers ensure a secure grip. Equipped with a helium valve to release pressure, and Super-LumiNova for guidance in the darkest depths, the CO-1 is designed to withstand the harshest conditions. These reliable timepieces will accompany divers on the Ananta II expedition in Greenland's icy waters, serving as trusted companions as we unravel the mysteries of the Greenland shark and forge a deeper connection with the ocean's most enigmatic creatures.

EDOX - CO-1 CHRONOGRAPH AUTOMATIC

EDOX - CO-1

The Edox CO-1 is the ultimate in dive watch engineering performance and design, also a master of the fantastic world beneath the waves. Water resistant up to 1000m / 100 ATM, protected by a scratch-resistant sapphire crystal and a ceramic bezel, the CO-1 is the perfect timekeeping tool for exploring the oceans.

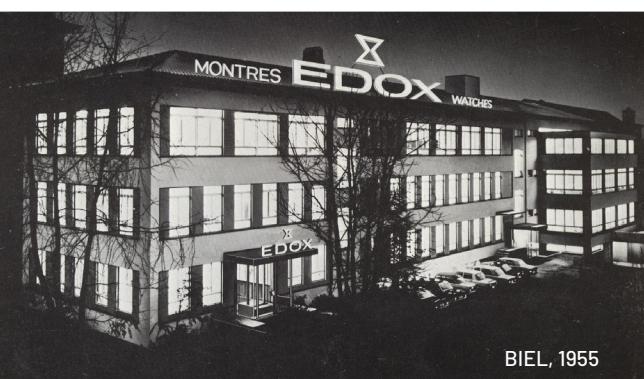

140 YEARS OF EDOX

Like time itself, Swiss boutique watchmaker Edox never stands still. Founder Christian Ruefli-Flury was driven by his heart when, in 1884, he made a pocket watch for his beloved wife Pauline's 25th birthday. Delighted, she convinced him to set up his own company – Edox.

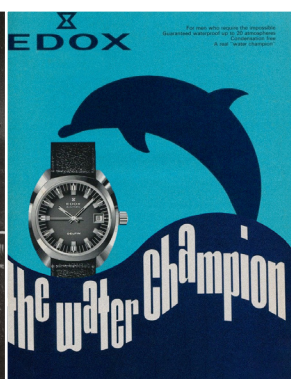

Over the decades Edox has forged a reputation as “The Water Champion” of the watch world, creating world-leading divers' watches. Ruefli-Flury would no doubt be amazed and honoured how his legacy has flourished over the past 140 years.

One of the few remaining family owned Swiss watchmakers, Edox proudly acknowledges its heritage but also embraces innovation and imagination in its collections. Today, Edox is known for its highly water-resistant timepieces, complex hand-polished watch cases and traditional hand assembling.

Edox. A company shaped over time. A company shaping time.
