SPIRIT OF THE OCEAN – THE RETURN OF A TIMELESS ICON

The ocean is a world of contrasts—graceful yet untamed, serene yet immensely powerful. It demands respect, precision, and the ability to navigate the unexpected. For decades, the Grand Ocean collection has embodied this duality, uniting refined elegance with unwavering strength. Today, it returns with the same uncompromising spirit, designed for those who chart their own course.

Grand Ocean Chronograph Automatic – Power and Precision

At 43mm, the Grand Ocean Chronograph is engineered for those who thrive on precision. Powered by the SW 500 BV b movement, it features a vertical bicompax chronograph layout with a date function, ensuring both symmetry and readability. Its robust construction includes a screw-down crown and 300m water resistance, ready to withstand the elements.

Each model tells its own story: from the timeless deep blue and black dials to the bold black and grey PVD case with violet-blue accents, evoking the ocean's twilight hues. Yet, beyond its striking exterior, the Grand Ocean Chronograph is built for endurance, a true companion for those who push boundaries.

94500 3CA NIN

RECOMMENDED RETAIL PRICE : € 2'790.00

Grand Ocean Power Reserve Automatic – Elegance with an Edge

Refined yet resolute, the 40mm Grand Ocean Power Reserve seamlessly blends craftsmanship and functionality. Driven by the SW 279-1 movement, it features a power reserve indicator at 6 o'clock and a small seconds counter at 9 o'clock, ensuring optimal balance. The dial's velvety texture, encircled by a delicate circular striage, mirrors the rhythm of the tides.

This model is available in classic blue and black steel versions, as well as a light blue dial with rose gold PVD indexes and hands, housed in a steel case. Like its chronograph counterpart, it is equipped with a screw-down crown and 300m water resistance, bridging elegance and technical mastery.

A Legacy of Craftsmanship

True to its heritage, the Grand Ocean collection retains its iconic Triple Horn case design, a mark of EDOX's engineering expertise. The sophisticated multi-component construction reflects the complexity of the sea—layered, powerful, and ever-changing. On the caseback, a finely engraved rose des vents reinforces the collection's connection to maritime precision, while glimpses of the movement through its openwork design remind us of the relentless motion that defines both time and tide.

Spirit of the Ocean lives on.

EDOX - GRAND OCEAN

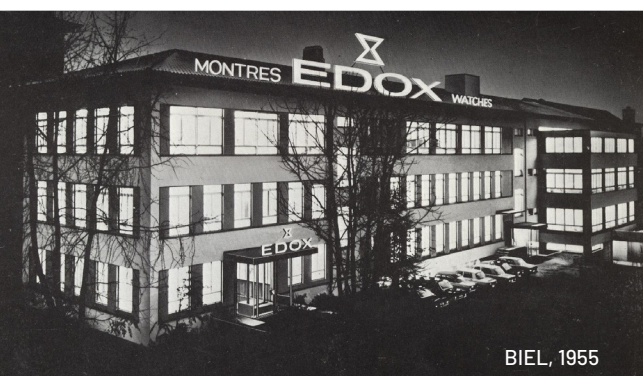

EDOX

Like time itself, Swiss boutique watchmaker Edox never stands still. Founder Christian Ruefli-Flury was driven by his heart when, in 1884, he made a pocket watch for his beloved wife Pauline's 25th birthday. Delighted, she convinced him to set up his own company – Edox.

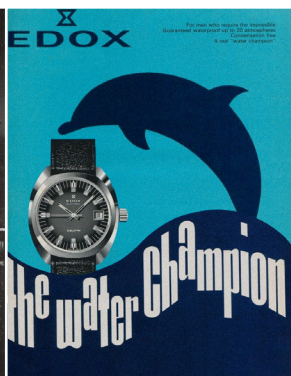

Over the decades Edox has forged a reputation as the “water champion” of the watch world, creating world-leading divers' watches. Ruefli-Flury would no doubt be amazed and honoured how his legacy has flourished over the past 140 years.

One of the few remaining family owned Swiss watchmakers, Edox proudly acknowledges its heritage but also embraces innovation and imagination in its collections. Today, Edox is known for its highly water-resistant timepieces, complex hand-polished watch cases and traditional hand assembling.

Edox. A company shaped over time. A company shaping time.
